

Gardant Technologies personnel among the first to secure coveted AIIM® Information Professional Certification

20 January 2012 Deerfield Beach FL - Gardant Technologies of Deerfield Beach, Florida, with offices in the Washington DC metropolitan area and the United Kingdom has invested and secured the classification of Certified Information Professional (CIP).

Gardant Technologies, a leader in Technology and Information Management Solutions has partnered with the Association for Information and Image Management (AIIM) in the education and training of Gardant personnel. The AIIM Certified Information Professional is dedicated to promoting and enhancing the profession of information management by providing the premier credential in the industry. Gardant Certified Information Professionals will contribute to the success of client organizations by helping to address the following types of information management challenges (both on-premises and in the cloud):

- Ensuring information is dynamically delivered to customers and staff
- Improvement of information sharing and collaboration
- Improvement of enterprise search and access to information
- Continuous Analysis of information to identify new business opportunities and improvements
- Ensuring appropriate information security and privacy controls across the enterprise
- Overall management of information and records
- Streamlining and automating intensive information processes

Gardant Technologies personnel have the ability to deliver comprehensive Information Management Business Strategy Planning, Life-Cycle Data Intelligence, Information Capture, Access, Use, Collaboration, Preservation, Security and Analysis in support of an organization's entire electronic and paper based information assets.

Spanning the digital asset library inclusive of all Social Media and Electronic messaging Gardant can develop comprehensive strategies and solutions designed to mitigate the risks associated with loss of data, long-term archival and elements related to legal and financial reporting requirements.

Gardant Technologies, part of the Gardant Global family of companies is a privately held Technology and Information Management company and currently has contracts supporting numerous government and commercial organizations.

For over 60 years, AIIM has been the leading non-profit organization focused on helping users to understand the challenges associated with managing documents, content, records, and business processes. Today, AIIM is international in scope, independent, and implementation-focused. As the industry's intermediary, AIIM represents the entire industry - including users, suppliers, and the channel.
